

LOGBOOK | Skills Immersion 1 | ALCHE

OVERVIEW						
TRADITIONAL INTERNSHIP/SELECT INITIATIVE/VIRTUAL INTERNSHIP SIMULATION TITLE	Frontend Developer Intern			COMPANY NAME (if applicable)	Scholarfrik	
SUPERVISOR (if applicable)	Dadeboe Perez					
TERM GOALS	List the specific goals and objectives you hope to achieve during the term. These may include skills development, knowledge acquisition, networking opportunities, or specific projects/tasks you aim to accomplish.					
	GOAL 1: Strengthen my technical and frontend development skills	Improve my practical skills in React, Next.js, TypeScript, Tailwind CSS, Git/GitHub, and building responsive, user-friendly interfaces through real project work.	GOAL 2: Develop professional and teamwork skills	Improve my communication, collaboration, time management, problem-solving, and ability to work effectively with supervisors and other team members in a professional environment.	GOAL 3: Grow personally and professionally	Build confidence, independence, adaptability, and a stronger professional mindset while learning from feedback, taking responsibility for tasks, and becoming more comfortable communicating and presenting my ideas
	LO 1:		LO 2:		LO 3:	
	LEARNING OUTCOMES (LOs)	LO 4:	Construct a relevant, work-based portfolio of evidence of learning.	LO 5:	[Description of additional outcome of your creation]	LO 6:
YOUR MISSION	My mission is to use technology and creativity to preserve cultural heritage, empower communities, and create solutions that improve people's lives.			YOUR GLOBAL CHALLENGES AND GLOBAL OPPORTUNITIES (GCGOs)	Arts, Culture & Design, Agriculture, and Climate change.	
YOUR CREATED ARTEFACT	My ScholAfrik Journey					

WEEK 1 LOG

WEEK STARTS	29/06/2026						
TASK/PROJECT NAME	DESCRIPTION	DURATION (HOURS)	SKILLS DEVELOPED/UTILIZED	SPECIAL NOTES			
Requirements & Setup	Reviewed task requirements, design and existing project structure.	8 hrs	Git, Next.js, requirements analysis	Prepared the project and planned the implementation.			
Student Cards	Built reusable student cards using shared student data.	8 hrs	React, TypeScript, Tailwind CSS	Added student details, interests and responsive styling.			
Student Carousel	Developed and integrated the horizontal student carousel.	8 hrs	React, TypeScript, responsive UI	Used reusable components and shared data.			
Connection Goals	Built the responsive connection goals grid and utilities.	8 hrs	TypeScript, Tailwind CSS, utility functions	Added goal navigation and reusable logic.			
Testing & PR	Tested, fixed UI issues and prepared the work for submission.	8 hrs	Testing, debugging, Git/GitHub	Corrected icons/layout and verified the implementation.			
REFLECTION							
ACCOMPLISHMENTS AND CONTRIBUTIONS		Highlight any notable achievements or contributions you have made this week. This may include successful completion of projects, positive feedback from supervisors or colleagues, or recognition received. Take note of any progress you are making towards your final artefact.					
		WHAT'S NOTABLE 1:	Completed the Students and Connection Goals section.	WHAT'S NOTABLE 2:	Built reusable components and utility functions.	WHAT'S NOTABLE 3:	Successfully tested, improved and submitted the work through GitHub.
NETWORKING AND PROFESSIONAL DEVELOPMENT		Describe any networking events, workshops, or training sessions you've attended this week. Discuss the value and impact of these opportunities on your professional growth and future career aspirations.					
		OPPORTUNITY 1:	Progress Meeting: Shared progress and discussed priorities with the team.	OPPORTUNITY 2:	Technical Meeting: Discussed implementation challenges and received guidance.	OPPORTUNITY 3:	Weekly Review: Reviewed completed work, feedback and next steps.

WEEK 2 LOG							
WEEK STARTS	06/07/2026						
TASK/PROJECT NAME	DESCRIPTION	DURATION (HOURS)	SKILLS DEVELOPED/UTILIZED	SPECIAL NOTES			
Requirements & Design	Reviewed the scholarship page requirements and design reference.	8 hrs	Requirements analysis, UI planning	Identified the required sections and functionality.			
Scholarship Listing	Built the responsive scholarship listing and hero section.	8 hrs	Next.js, TypeScript, Tailwind CSS	Focused on responsive layouts.			
Supporting Sections	Built the impact banner, FAQ, contact and CTA sections.	8 hrs	React, responsive design, UI/UX	Maintained consistency with the provided design.			
Scholarship Utilities	Implemented filtering and deadline utility functions.	8 hrs	TypeScript, data handling, unit testing	Added tests for scholarship utilities.			
Testing & PR	Tested responsiveness, linting and TypeScript before submission.	8 hrs	Testing, debugging, Git/GitHub	Verified mobile and desktop behaviour.			
REFLECTION							
ACCOMPLISHMENTS AND CONTRIBUTIONS		Highlight any notable achievements or contributions you have made this week. This may include successful completion of projects, positive feedback from supervisors or colleagues, or recognition received. Take note of any progress you are making towards your final artefact.					
		WHAT'S NOTABLE 1:	Completed a responsive scholarships listing page.	WHAT'S NOTABLE 2:	Developed scholarship filtering and deadline utilities.	WHAT'S NOTABLE 3:	Successfully passed testing, linting and TypeScript validation.
NETWORKING AND PROFESSIONAL DEVELOPMENT		Describe any networking events, workshops, or training sessions you've attended this week. Discuss the value and impact of these opportunities on your professional growth and future career aspirations.					
		OPPORTUNITY 1:	Team Meeting: Presented progress on the scholarship page.	OPPORTUNITY 2:	Technical Discussion: Discussed implementation and design requirements.	OPPORTUNITY 3:	Progress Review: Reviewed testing results and improvements with the team.

WEEK 3 LOG

WEEK STARTS	13/07/2026						
TASK/PROJECT NAME	DESCRIPTION	DURATION (HOURS)	SKILLS DEVELOPED/UTILIZED	SPECIAL NOTES			
About Page Setup	Reviewed the design and prepared the /about page structure.	8 hrs	Next.js, requirements analysis	Reused the existing Navbar and Footer.			
Hero & Stats	Developed the responsive Hero and Stats sections.	8 hrs	React, Tailwind CSS, responsive design	Followed the ScholAfrik design reference.			
Mission & Team	Built Mission/Vision and Team sections.	8 hrs	React, component design, Tailwind CSS	Ensured responsiveness across screen sizes.			
Why ScholAfrik & Images	Built the final content section and configured images.	8 hrs	Next.js Image, responsive UI, configuration	Added optimized external image support.			
Debugging & PR	Fixed runtime issues, tested the page and prepared the PR.	8 hrs	Debugging, Git/GitHub, testing	Verified /about on localhost and different screen sizes.			
REFLECTION							
ACCOMPLISHMENTS AND CONTRIBUTIONS		Highlight any notable achievements or contributions you have made this week. This may include successful completion of projects, positive feedback from supervisors or colleagues, or recognition received. Take note of any progress you are making towards your final artefact.					
		WHAT'S NOTABLE 1:	Completed the responsive ScholAfrik About page.	WHAT'S NOTABLE 2:	Reused shared components to maintain consistency.	WHAT'S NOTABLE 3:	Resolved runtime and external image-loading issues.
NETWORKING AND PROFESSIONAL DEVELOPMENT		Describe any networking events, workshops, or training sessions you've attended this week. Discuss the value and impact of these opportunities on your professional growth and future career aspirations.					
		OPPORTUNITY 1:	Progress Meeting: Updated the team on the About page development.	OPPORTUNITY 2:	Technical Meeting: Discussed responsiveness and shared component usage.	OPPORTUNITY 3:	Review Meeting: Received feedback and discussed required improvements.

WEEK 4 LOG						
WEEK STARTS	20/07/2026					
TASK/PROJECT NAME	DESCRIPTION	DURATION (HOURS)	SKILLS DEVELOPED/UTILIZED	SPECIAL NOTES		
Login UI	Built the login page using the shared authentication components.	8 hrs	Next.js, React, Tailwind CSS	Matched the provided login design.		
Credentials Login	Connected email/password login through NextAuth.	8 hrs	NextAuth, authentication, TypeScript	Added error and loading states.		
Profile Routing	Added profile completion checks and conditional redirects.	8 hrs	API integration, sessions, routing	Users route to onboarding or feed.		
Google Sign-In	Integrated Google authentication and callback flow.	8 hrs	OAuth, NextAuth, session management	Used the existing authentication architecture.		
Debugging & PR	Resolved merge conflicts, tested authentication and submitted changes.	8 hrs	Git, debugging, testing	Preserved existing OAuth and callback functionality.		
REFLECTION						
ACCOMPLISHMENTS AND CONTRIBUTIONS		Highlight any notable achievements or contributions you have made this week. This may include successful completion of projects, positive feedback from supervisors or colleagues, or recognition received. Take note of any progress you are making towards your final artefact.				
		WHAT'S NOTABLE 1:	Successfully integrated credentials authentication with NextAuth.	WHAT'S NOTABLE 2:	Added Google sign-in and profile-based routing.	WHAT'S NOTABLE 3: Resolved merge conflicts while maintaining the authentication flow.
NETWORKING AND PROFESSIONAL DEVELOPMENT		Describe any networking events, workshops, or training sessions you've attended this week. Discuss the value and impact of these opportunities on your professional growth and future career aspirations.				
		OPPORTUNITY 1:	Progress Meeting: Shared updates on login and authentication development.	OPPORTUNITY 2:	Technical Meeting: Discussed NextAuth, OAuth, sessions and routing.	OPPORTUNITY 3: Review Meeting: Reviewed authentication issues and solutions with the team.

WEEK 5 LOG						
WEEK STARTS	27/07/2026					
TASK/PROJECT NAME	DESCRIPTION	DURATION (HOURS)	SKILLS DEVELOPED/UTILIZED	SPECIAL NOTES		
Navbar Auth State	Implemented different navbar states based on user authentication.	8 hrs	React, NextAuth, session handling	Login/Signup for guests and Discover for logged-in users.		
Avatar & Dropdown	Built the authenticated user's avatar and dropdown menu.	8 hrs	React, UI/UX, conditional rendering	Added initials fallback when no image exists.		
Navigation & Sign-out	Added profile/feed/settings navigation and sign-out behaviour.	8 hrs	NextAuth, routing, session management	Tested session termination and navigation.		
Feed UI Polish	Improved feed backgrounds, categories, icons and empty states.	8 hrs	Tailwind CSS, responsive UI, UX	Improved visual consistency and usability.		
Testing & PR	Tested authentication states, refresh behaviour and responsive UI.	8 hrs	Testing, debugging, Git/GitHub	Verified logged-in and logged-out states.		
REFLECTION						
ACCOMPLISHMENTS AND CONTRIBUTIONS		Highlight any notable achievements or contributions you have made this week. This may include successful completion of projects, positive feedback from supervisors or colleagues, or recognition received. Take note of any progress you are making towards your final artefact.				
		WHAT'S NOTABLE 1:	Implemented authentication-aware landing page navigation.	WHAT'S NOTABLE 2:	Added a functional user dropdown with sign-out and navigation.	WHAT'S NOTABLE 3: Improved several areas of the feed user interface.
NETWORKING AND PROFESSIONAL DEVELOPMENT		Describe any networking events, workshops, or training sessions you've attended this week. Discuss the value and impact of these opportunities on your professional growth and future career aspirations.				
		OPPORTUNITY 1:	Progress Meeting: Demonstrated navbar and feed UI progress.	OPPORTUNITY 2:	Technical Discussion: Discussed authentication states and UI behaviour.	OPPORTUNITY 3: Weekly Review: Reviewed testing results and received implementation feedback.

WEEK 6 LOG

WEEK STARTS	03/08/2026						
TASK/PROJECT NAME	DESCRIPTION	DURATION (HOURS)	SKILLS DEVELOPED/UTILIZED	SPECIAL NOTES			
API Review & Setup	Reviewed the existing Partners implementation and API requirements.	8 hrs	REST APIs, TypeScript, code analysis	Worked within the existing BackOffice structure.			
List Partners	Implemented partner listing with pagination and filters.	8 hrs	GET requests, query parameters, TypeScript	Supported search and status filtering.			
Create Partner	Implemented functionality for creating new partners.	8 hrs	POST requests, JSON, API integration	Connected creation functionality to the backend.			
Update & Delete	Implemented partner status updates and deletion.	8 hrs	PATCH/DELETE, REST APIs, debugging	Added required confirmation for deletion.			
Testing & PR	Tested partner operations and prepared changes for submission.	8 hrs	Testing, debugging, Git/GitHub	Verified integration with existing hooks/components.			
REFLECTION							
ACCOMPLISHMENTS AND CONTRIBUTIONS		Highlight any notable achievements or contributions you have made this week. This may include successful completion of projects, positive feedback from supervisors or colleagues, or recognition received. Take note of any progress you are making towards your final artefact.					
		WHAT'S NOTABLE 1:	Implemented partner listing and creation functionality.	WHAT'S NOTABLE 2:	Added partner status update and deletion functionality.	WHAT'S NOTABLE 3:	Improved my understanding of complete frontend-to-backend API integration.
NETWORKING AND PROFESSIONAL DEVELOPMENT		Describe any networking events, workshops, or training sessions you've attended this week. Discuss the value and impact of these opportunities on your professional growth and future career aspirations.					
		OPPORTUNITY 1:	Progress Meeting: Shared progress on the Partners API implementation.	OPPORTUNITY 2:	Technical Meeting: Discussed API requests, responses and debugging approaches.	OPPORTUNITY 3:	Weekly Review: Reviewed completed functionality and discussed improvements.

WEEK 7 LOG

WEEK STARTS	10/08/2026						
TASK/PROJECT NAME	DESCRIPTION	DURATION (HOURS)	SKILLS DEVELOPED/UTILIZED	SPECIAL NOTES			
Dashboard Requirements & Setup	Reviewed the Scholarships and Research dashboard requirements and compared the hosted UX reference with the existing codebase.	8 hrs	Requirements analysis, Next.js, UI inspection, Git	Reviewed the existing mock-data pattern and planned both dashboard pages before implementation.			
Scholarships Dashboard	Built the Scholarships dashboard with summary cards, filters, table, row actions and Add Scholarship modal.	8 hrs	React, TypeScript, Tailwind CSS, state management	Used scholarship mock data from src/constants/data.ts and managed all interactions locally with useState.			
Research Dashboard	Built the Research dashboard with summary cards, filters, project table, status badges and Add Research Project modal.	8 hrs	React, TypeScript, Tailwind CSS, component development	Added field badges, researcher details, publication states and local row actions.			
Local State & Interactions	Implemented search, filters, status changes, publish/unpublish, delete actions and in-memory item creation.	8 hrs	React state management, filtering, UI logic, debugging	All interactions worked using local mock state only, with no API calls or backend changes.			
Styling, Testing & PR	Aligned both pages with the design reference, tested interactions and prepared the pull request.	8 hrs	UI/UX, responsive design, debugging, Git/GitHub	Added the Research route/sidebar item and verified that data.ts remained unchanged.			
REFLECTION							
ACCOMPLISHMENTS AND CONTRIBUTIONS		Highlight any notable achievements or contributions you have made this week. This may include successful completion of projects, positive feedback from supervisors or colleagues, or recognition received. Take note of any progress you are making towards your final artefact.					
		WHAT'S NOTABLE 1:	Completed both Scholarships and Research dashboard interfaces with their main cards, filters, tables, action menus and modals.	WHAT'S NOTABLE 2:	Implemented all search, filter, row-action and add-item behaviour using local React state without backend integration.	WHAT'S NOTABLE 3:	Improved the visual consistency of both pages by matching the hosted design reference, including badges, spacing, buttons and dashboard navigation.

NETWORKING AND PROFESSIONAL DEVELOPMENT	Describe any networking events, workshops, or training sessions you've attended this week. Discuss the value and impact of these opportunities on your professional growth and future career aspirations.				
	OPPORTUNITY 1:	Shared progress on the Scholarships and Research dashboard pages and discussed implementation priorities with the team.	OPPORTUNITY 2:	Discussed local state management, UI interactions and how to follow the existing codebase conventions without introducing backend calls.	OPPORTUNITY 3: Reviewed both dashboard pages against the design reference, discussed required visual adjustments and confirmed the next development steps.
